Experience and employment history:

- **Asset Recovery & Valuation Manager** 2023 - Present
 - Managed the process of optimizing ROI and value recovery by conducting market research to determine the remarketing or recycling of assets. Includes overseeing the refurbishment of assets, the process of certifying the recycling or destruction of assets, as well as the recovery of precious metals and other materials from industrial and electronic equipment.
 - Responsible for managing 1.5 million pounds of assets on average on a monthly basis and optimized settlement reports for numerous fortune 500 companies.
- **Inventory Control Manager** 2019 –2023
 - Managed the coordination of the warehouse floor, inventory system, recording the secure custody transfer of assets, and quality inspections of materials and equipment.
 - Developed and implemented an Inventory workflow that increased floor space efficiency by approximately 25% and reduced receiving time by more than 50%.
- **Inventory Control Specialist** 2016 –2019
 - Responsible for organizing, recording, and auditing inventory, and secure custody transfer of assets.
 - Categorized thousands of assets into distinct refurbishment and recycling processes.
- **Notable Academic projects:**

- Conducted a Research and Data analysis project exploring the relationship between Google search Trends and Inflation as part of a EPPS KNOWLEDGE MINING 6323 class
- Conducted a Patent search in collaboration with The UTD Office of Technology Commercialization (OTC) for a Patent Pending technology as part of a PPPE 6365 THE INNOVATION ECONOMY class.
- Created a Python script that can display financial data from yahoo finance in the form of charts as part of a EPPS 6317 PYTHON PROG FOR SOCIAL SCIENCE class building off some previous work from a ECON 6357 MONETARY ECON AND INTL BANKING class
- Created a portable ATX format PC desktop setup for graphics intensive programs for a Capstone project. Allows rendering graphics heavy programs such as CAD, video, and audio to be available while traveling while still retaining the compatibility with standard ATX format components allowing for efficient and cost effective upgrades in the future.
- Planned and hosted an independent academic research conference, which included logistics, budgeting, organizing catering, advertising, scheduling speakers, and staffing the event.
- **Volunteering:** Allen Community OutReach Food Pantry from June to December 2015.
 - I unloaded trucks full of food, helped inventory and organize, restocked, interacted with customers, as well as weighing, bagging, and recording food going in and out.
 - Contact: Geoben A. Johnson, C.P.M Food Pantry Manager, 801. Main Street Allen, TX 75002, foodpantry@acocares.org or Office 972-727-9131, cell 214-454-5995
